Making the Transition

How CICS-West Belden Eighth-Grade Graduates Are Doing in CPS High Schools

Helping elementary graduates make a successful transition to high school has become a new priority for CPS schools. This customized research offers you the objective data needed to make informed decisions about improving these transitions. This report tracks the high school experiences of your school's *eighth-grade* graduates in CPS. You can see at a glance how well these students have done after making the big transition from elementary to high school — a tough time for many students.

The main indicator that we use in this report is the “freshman on-track” rate. Freshmen are on-track if they have accumulated five full-year credits and have no more than one semester F in a core class (for definitions of other terms, see the “Key Terms” section at the end of this document).

Being “on-track” at the end of freshman year is highly predictive of whether students will graduate from high school or not. Students who are on-track at the end of freshman year are about *four times* more likely to graduate from high school than students who are not on-track. Even students who are academically strong at the end of eighth grade can falter in freshman year. At the same time, if weaker students have a successful freshman year, they also are very likely to graduate from high schools.

On-Track to Graduation

The information on the following two pages tracks CPS 2002 eighth-grade graduates for five full years after elementary school (up to Spring 2007 – this is the most recent five-year graduation data available). Because CICS-Belden did not have a 2002 eighth-grade graduating class, the data on the following two pages are CPS-wide (subsequent sections show data specific to CICS-Belden graduates). As the figure and table make clear, being “on-track” at the end of freshman year is highly predictive of whether students will graduate from high school or not. These data can also assist in addressing questions such as:

- Are CPS eighth-graduates on-track in ninth grade?
- Does the ninth-grade performance of CPS students relate to how well they do throughout high school?
- Are CPS eighth-grade graduates completing high school as expected?

Section Contents

CPS students’ progression through high school (page 4)

The top row of the figure on page 4 shows how many students were on-track to graduate, how many were off-track, how many had dropped out, and how many left CPS during their freshman year. Each subsequent line shows how the 2002 cohort progressed in each following year, with most graduating after the fourth year and others graduating in the fifth year.

The upper table on page 4 shows the numbers that correspond to the figure. The lower table shows the on-track, off-track, graduation, and dropout rates. We show these separately because the on- and off-track rates exclude students who attended charter high schools or left CPS, while the graduation and dropout rates only exclude those students who left CPS.

On-Track to Graduation

How do CPS students progress through high school?

2002 Eighth-Grade Graduates

Table 1: CPS 2002 Eighth-Grade Graduates' Progression through High School

	Total	On-Track	Off-Track	Charter School	Graduated	Dropped Out	Left CPS
First Year - 2002-2003	28,449	15,210	7,721	354	n/a	1,665	3,499
Second Year - 2003-2004	28,449	12,642	7,910	395	n/a	2,762	4,740
Third Year - 2004-2005	28,449	11,275	6,433	363	120	4,390	5,868
Fourth Year - 2005-2006	28,449	n/a	3,293	60	12,505	6,048	6,543
Fifth Year - 2006-2007	28,449	n/a	684	9	13,361	7,456	6,939

On-Track, Off-Track, Graduation, and Dropout Rates

	On-Track and Off-Track			Graduation and Dropout		
	Included in Calculation ¹	On-Track	Off-Track	Included in Calculation ¹	Graduation	Dropout
First Year - 2002-2003	24,596	62%	31%	24,950	n/a	7%
Second Year - 2003-2004	23,314	54%	34%	23,709	n/a	12%
Third Year - 2004-2005	22,218	51%	29%	22,581	1%	19%
Fourth Year - 2005-2006	n/a	n/a	n/a	21,906	57%	28%
Fifth Year - 2006-2007	n/a	n/a	n/a	21,510	62%	35%

¹On-track and off-track rates exclude students who attended charter schools or left CPS. Graduation and dropout rates exclude students who left CPS.

Performance over Time

The previous two pages detailed what happened to a single group of CPS eighth-grade graduates (the 2002 cohort) throughout high school. It should be clear that the first year of high school is highly predictive of whether a student will graduate or dropout (the freshman on-track rate for CPS eighth-grade graduates is very close to the final graduation rate).

The following pages show how more recent cohorts of your eighth-grade graduates have each performed in their first year of high school. Starting with the CICS-Belden class of 2002 and including each successive class through 2006, the graphs show the freshman on-track rates, GPAs, and the percentage of CICS-Belden students who fail at least one semester of ninth-grade math, English, or both subjects. It is important to note that some of the students who fail one semester of math or English may still be on-track. It takes two semester Fs or a lack of credits for a student to be considered off-track.

These data can assist in addressing questions such as:

- Have freshman on-track rates improved, declined, or remained stable over time?
- How have CICS-Belden graduates fared over time in comparison to the CPS average for eighth-grade graduates?
- Are CICS-Belden graduates getting higher or lower grades in ninth grade?
- Are math and English failure rates for CICS-Belden graduates changing over time?
- Are CICS-Belden graduates more likely to fail both math AND English or only one of the subjects in ninth grade?

Section Contents

On-Track Rate over Time (page 6)

Course Failure over Time (page 7)

GPA over Time (page 8)

The figure on page 8 shows the distribution of freshman GPAs, another measure that is highly predictive of graduation. In CPS, nine in ten students with an A or B average and seven in ten students with a C average will graduate from high school within four years. In contrast, one in four of students with a D average will graduate, and not even one in twenty of students with an F average will graduate within four years (0% of 2006 CICS-Belden graduates had an F average).

On-Track over Time

How does the freshman on-track rate change over time for CICS-Belden graduates?

2002 to 2006 Eighth-Grade Graduates

Table 2: Five Years of Freshman On-Track Rates for CICS-Belden Graduates

Ninth-Grade Year	Total	Included in Calculation ¹	CICS-Belden On-Track	CPS On-Track ²
2002--2003	n/a	n/a	n/a	15,210 (62%)
2003--2004	n/a	n/a	n/a	15,083 (58%)
2004--2005	n/a	n/a	n/a	15,385 (59%)
2005--2006	54	25	13 (52%)	15,583 (58%)
2006--2007	57	11	8 (73%)	14,847 (59%)

¹This number excludes those CICS-Belden students who left CPS or attended a charter school.

²This CPS rate only counts high school students who graduated from eighth grade in CPS.

Course Failure over Time

How do CICS-Belden graduates perform in freshman math and English over time?

2002 to 2006 Eighth-Grade Graduates

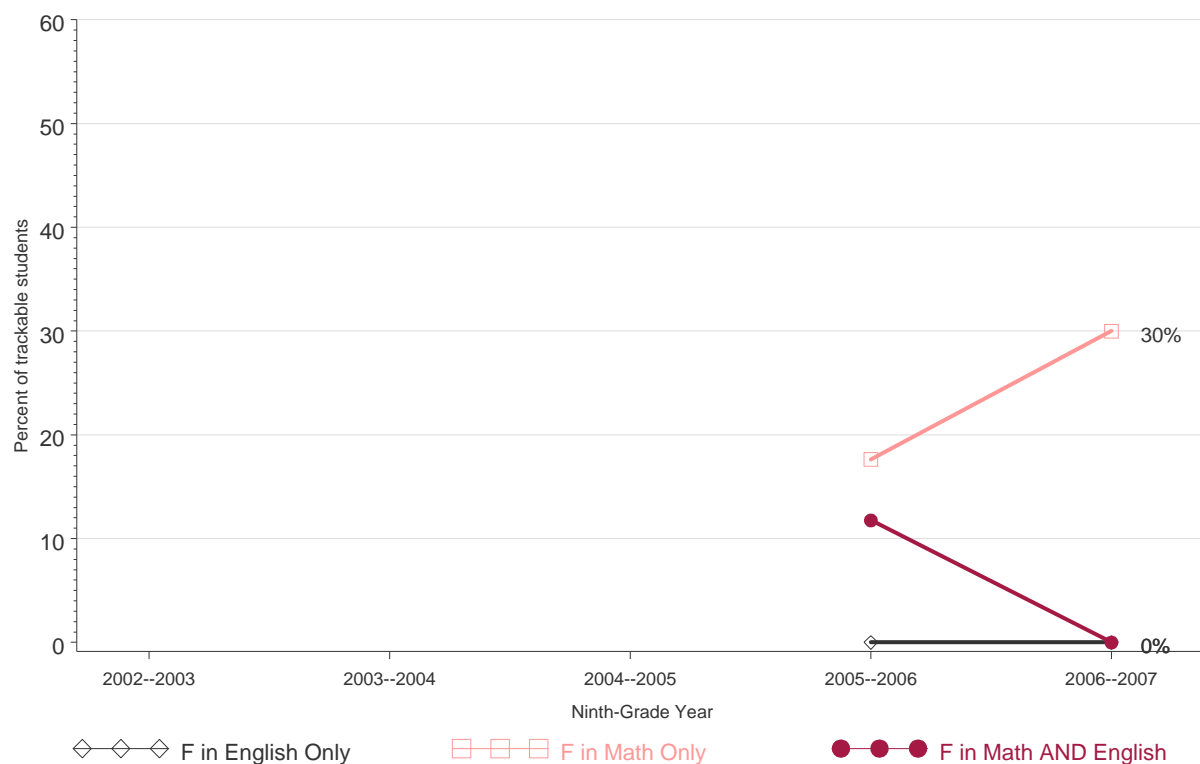

Table 3: Five Years of Freshman Math and English Failure Information for CICS-Belden Graduates

Ninth-Grade Year	Total	Included in Calculation ¹	F in English Only	F in Math Only	F in Math AND English
2002--2003	n/a	n/a	n/a	n/a	n/a
2003--2004	n/a	n/a	n/a	n/a	n/a
2004--2005	n/a	n/a	n/a	n/a	n/a
2005--2006	54	17	0 (0%)	3 (18%)	2 (12%)
2006--2007	57	10	0 (0%)	3 (30%)	0 (0%)

Note: Failures refer to semester failures, not full-year failures. It takes two semester failures to be considered off-track.

¹This number excludes those CICS-Belden students who left CPS, attended a charter school, dropped out in their freshman year, or were missing grades.

GPA over Time

How do CICS-Belden graduates perform in their freshman courses over time?
2002 to 2006 Eighth-Grade Graduates

Table 4: Five Years of Freshman GPAs for CICS-Belden Graduates

Ninth-Grade Year	Total	Included in Calculation ¹	A/B	C	D	F
2002-2003	n/a	n/a	n/a	n/a	n/a	n/a
2003-2004	n/a	n/a	n/a	n/a	n/a	n/a
2004-2005	n/a	n/a	n/a	n/a	n/a	n/a
2005-2006	54	17	9 (53%)	4 (24%)	3 (18%)	1 (6%)
2006-2007	57	10	5 (50%)	4 (40%)	1 (10%)	0 (0%)

Note: GPA is rounded to the nearest 1.0 (A = 4.0; B = 3.0; C = 2.0; D = 1.0; F = 0.0).

¹This number excludes those CICS-Belden students who left CPS, attended a charter school, dropped out in their freshman year, or were missing grades.

On-Track Rates by High School Attended

The freshman on-track rates of your students can vary greatly depending on the high schools they attend. Focusing on the most recent ninth grade data available (CICS-Belden 2006 graduates), we detail the freshman on-track rates by the high school attended on the next two pages. For comparative purposes, we also provide on-track rates by high school for the overall CPS population of graduating eighth-graders (page 12). The information on the following pages can address questions such as:

- What high schools do CICS-Belden graduates attend?
- How many CICS-Belden graduates are attending selective enrollment schools?
- Do the on-track rates of CICS-Belden graduates differ by the high school attended?
- Are the high schools that most CICS-Belden graduates attend meeting your expectations for moving students toward graduation?
- Are CICS-Belden graduates exercising choice in selecting their high schools?
- Is the on-track rate for CICS-Belden graduates at each high school (page 9) better, worse, or comparable to the average for CPS eighth-grade graduates at the same high school?

Note that we cannot track student performance in CPS charter high schools or after they leave CPS.

Section Contents

On-Track by High School (page 10)

The figure on page 10 shows the CPS non-charter high schools where at least five CICS-Belden 2006 graduates attended ninth grade. The schools are ordered by total enrollment, with schools having the highest enrollment at the top. For each school, the blue portion of the bar represents the number of students from CICS-Belden who were on-track; the pink section of the bar shows the number of students who were off-track or dropped out as of the summer after ninth grade. To the right of each bar is the on-track rate for CICS-Belden students in that school. The table on page 11 provides precise numbers as well as enrollment information for charter high schools.

CPS On-Track by High School (page 12)

The figure on page 12 displays on-track rates for CPS 2006 eighth-grade graduates by high school. The bars are ordered by on-track rate, with the school having the highest on-track rate at the top. Schools that enrolled at least one CICS-Belden graduate are marked in blue.

Note: The on-track rate for each school may be different than the rates published by CPS. Discrepancies are likely due to two factors:

- *We treat students that are in non-charter high schools but missing transcript data as on-track in this report.*
- *These are on-track rates for students that were in a CPS school for eighth-grade. CPS published on-track rates typically include all freshmen, regardless of where they went for eighth grade.*

On-Track by High School

Are certain high schools better at keeping CICS-Belden graduates on-track as freshmen?

2006 Eighth-Grade Graduates

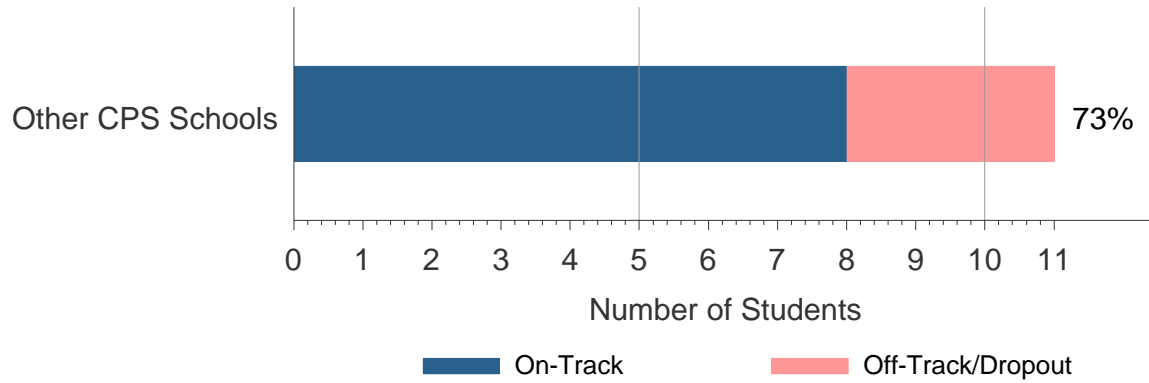

Table 5: Freshman On-Track Rates by High School for CICS-Belden 2006 Graduates

High School	Number of Students	Number On-Track	Percent On-Track
Other CPS Schools	11	8	73%
Included in Calculation	11	8	73%
Students without On-Track Information			
CICS-Northtown ¹	41	n/a	n/a
Other CPS Charter Schools ¹	1	n/a	n/a
Left CPS	4	n/a	n/a

Note: Schools with fewer than five CICS-Belden students are not shown here. Instead, those students are grouped into the “Other CPS Schools” and “Other CPS Charter Schools” categories, which are shown only if each has at least one student.

¹ We cannot calculate on-track for charter school students because we do not have their transcript data.

CPS On-Track by High School

Are certain high schools better at keeping CPS students on-track as freshmen?

2006 CPS Eighth-Grade Graduates

Enrolling CICS-Belden students Not Enrolling CICS-Belden students

Note: Schools marked as enrolling CICS-Belden students enrolled at least one student from the CICS-Belden eighth-grade class of 2006.

See page 6 for an explanation of why the on-track rates may be different from other published on-track rates.

On-Track Rates by Student Background

The freshman on-track rates of your students can vary greatly for different demographic groups (race, gender, education service receivers, and ISAT performance). The following pages detail the freshman on-track rates of CICS-Belden 2006 eighth-grade graduates by each of these groups. For comparative purposes, we also provide on-track rates by subgroup for the overall CPS population of graduating eighth-graders. The information on the following pages can address questions such as:

- Is there a race or gender gap in freshman on-track rates for CICS-Belden graduates?
- Do special education students from CICS-Belden differ from their general education peers in their likelihood of graduating (i.e., freshman on-track rate)?
- Do CICS-Belden graduates in each subgroup outperform or underperform their peers in CPS?
- Are CICS-Belden graduates who meet/exceed standards on the ISAT on-track to graduate from high school?
- Do CICS-Belden graduates in each subgroup meet your expectations for staying on-track to graduate?

Note that we cannot track student performance in CPS charter high schools or after students leave CPS.

Section Contents

On-track by Race/Ethnicity (page 14)

On-track by Gender (page 15)

On-track by English Language Learner status (page 16)

On-track by Special Education Status (page 17)

On-track by ISAT Performance (page 18)

On-Track by Race/Ethnicity

Do CICS-Belden graduates have different freshman on-track rates by race/ethnicity?

2006 Eighth-Grade Graduates

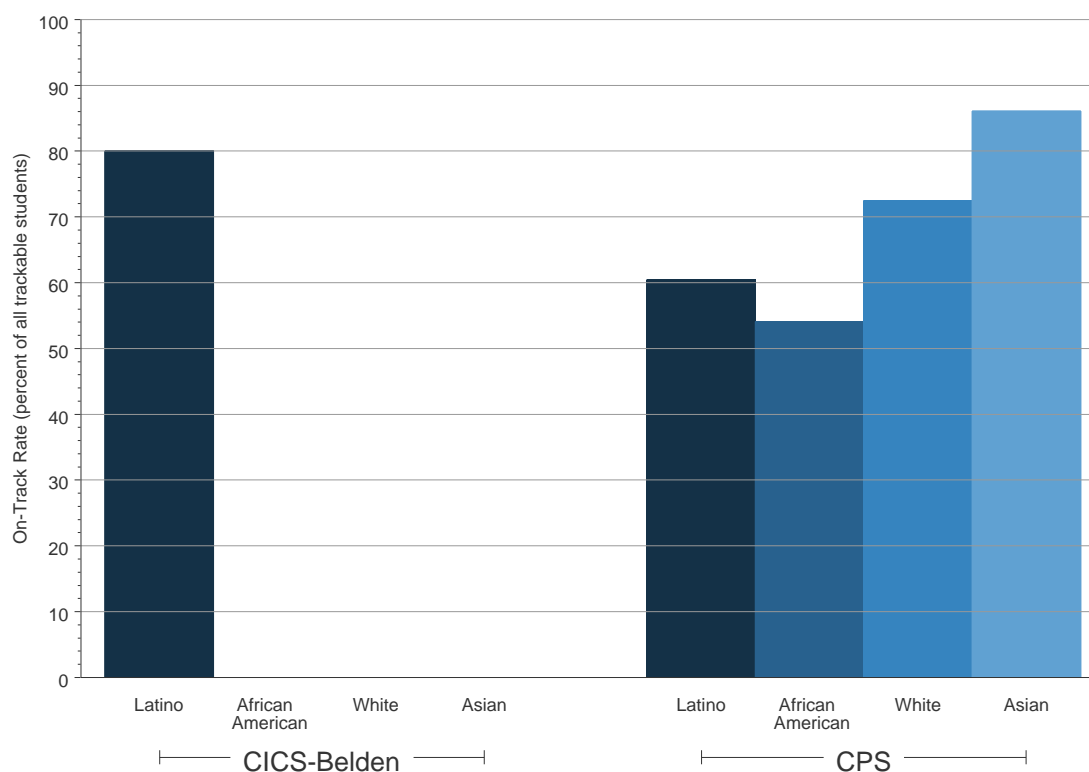

Table 6: Freshman On-Track Rates by Race/Ethnicity for 2006 CICS-Belden Graduates

	Total	Included in Calculation ¹	CICS-Belden On-Track	CPS On-Track ²
Latino	39	10	8 (80%)	5,582 (60%)
African American	17	0	n/a	7,045 (54%)
White	1	0	n/a	1,485 (72%)
Asian	0	0	n/a	717 (86%)

¹This number excludes those CICS-Belden students who left CPS or attended a charter high school. Categories with fewer than ten students are not shown to maintain student confidentiality.

²This CPS rate only counts high school students who graduated eighth grade from a CPS school.

On-Track by Gender

Do CICS-Belden boys and girls have different freshman on-track rates?

2006 Eighth-Grade Graduates

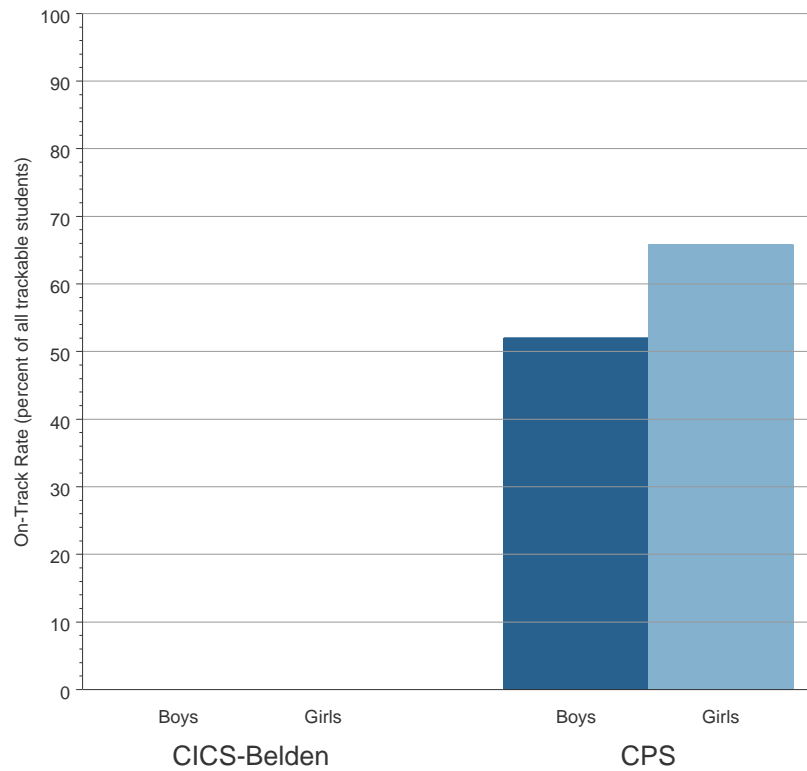

Table 7: Freshman On-Track Rates by Gender for 2006 CICS-Belden Graduates

	Total	Included in Calculation ¹	CICS-Belden On-Track	CPS On-Track ²
Boys	30	0	n/a	6,455 (52%)
Girls	27	0	n/a	8,392 (66%)

¹This number excludes those CICS-Belden students who left CPS or attended a charter high school. Categories with fewer than ten students are not shown to maintain student confidentiality.

²This CPS rate only counts high school students who graduated eighth grade from a CPS school.

On-Track by ELL Status

Do CICS-Belden English language learners have different freshman on-track rates?

2006 Eighth-Grade Graduates

Table 8: Freshman On-Track Rates by English Language Learner Status for 2006 CICS-Belden Graduates

	Total	Included in Calculation ¹	CICS-Belden On-Track	CPS On-Track ²
Non ELL	30	0	n/a	10,767 (57%)
ELL	27	0	n/a	4,080 (64%)

Note: English Language Learners (ELL) are those students who were in a CPS bilingual program for at least two years at any point in elementary school.

¹This number excludes those CICS-Belden students who left CPS or attended a charter high school. Categories with fewer than ten students are not shown to maintain student confidentiality.

²This CPS rate only counts high school students who graduated eighth grade from a CPS school.

On-Track by Special Education

Do CICS-Belden special education students have different freshman on-track rates?

2006 Eighth-Grade Graduates

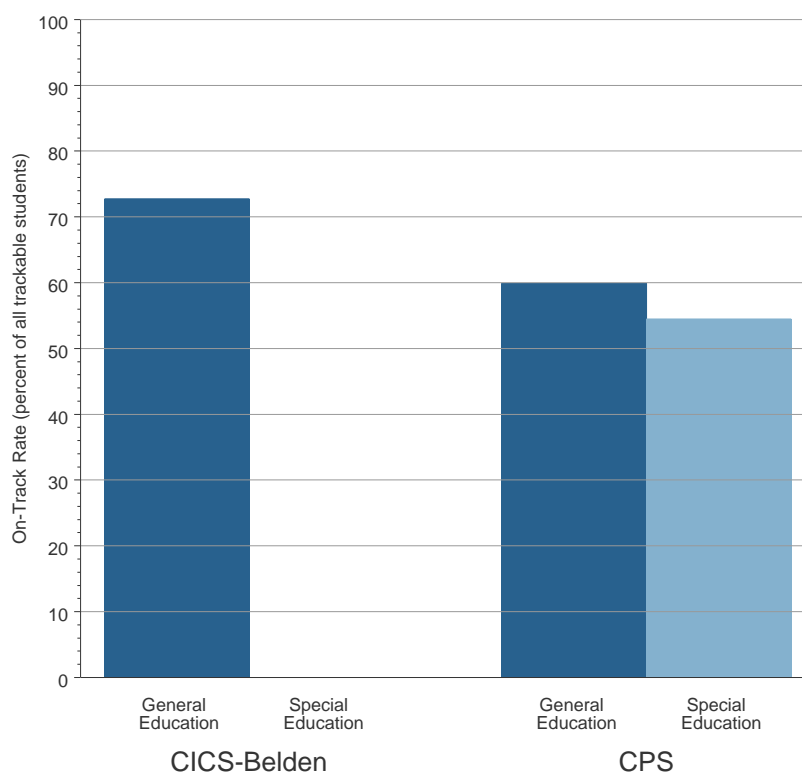

Table 9: Freshman On-Track Rates by Special Education for 2006 CICS-Belden Graduates

	Total	Included in Calculation ¹	CICS-Belden On-Track	CPS On-Track ²
General Education	53	11	8 (73%)	12,567 (60%)
Special Education	4	0	n/a	2,280 (54%)

¹This number excludes those CICS-Belden students who left CPS or attended a charter high school. Categories with fewer than ten students are not shown to maintain student confidentiality.

²This CPS rate only counts high school students who graduated eighth grade from a CPS school.

On-Track by ISAT Performance

Do CICS-Belden graduates have different freshman on-track rates by ISAT reading performance level?
2006 Eighth-Grade Graduates

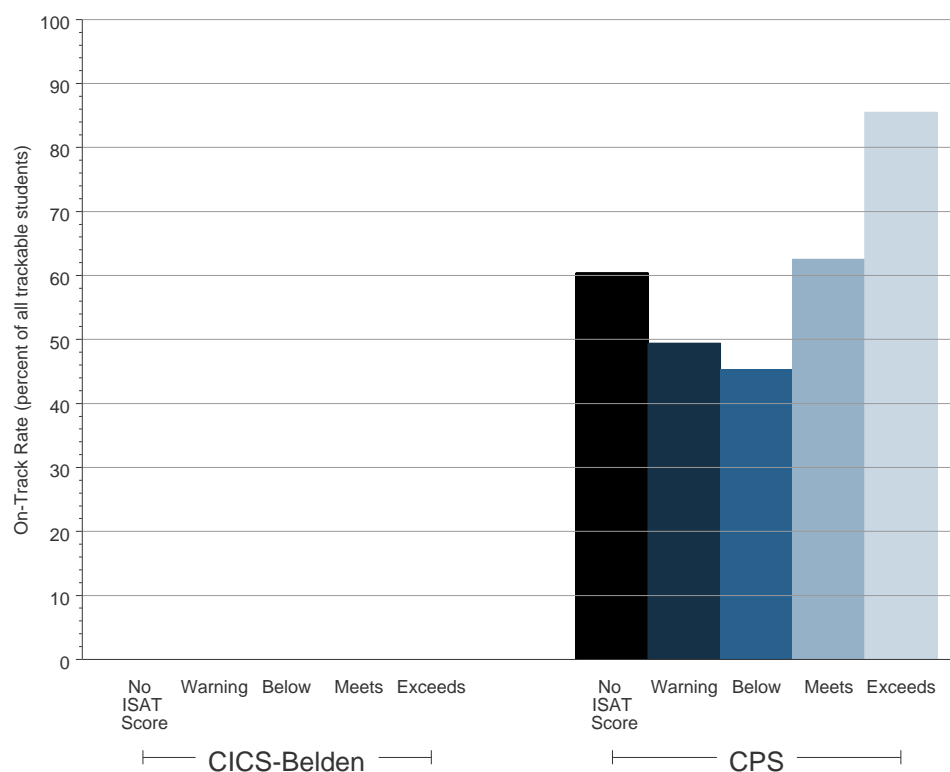

Table 10: Freshman On-Track Rates by ISAT Reading Performance for 2006 CICS-Belden Graduates

	Total	Included in Calculation ¹	CICS-Belden On-Track	CPS On-Track ²
No ISAT Score	0	0	n/a	985 (60%)
Warning	0	0	n/a	41 (49%)
Below	14	0	n/a	2,926 (45%)
Meets	42	0	n/a	9,901 (63%)
Exceeds	1	0	n/a	994 (85%)

¹This number excludes those CICS-Belden students who left CPS or attended a charter high school. Categories with fewer than ten students are not shown to maintain student confidentiality.

²This CPS rate only counts high school students who graduated eighth grade from a CPS school.

Key Terms

On-track

These students received no more than one semester F in a core course (English, math, social science, or science) during the school year and had enough credits to advance to the next grade on time (5 for freshmen, 11 for sophomores, and 17 for juniors). Credits earned in summer school are counted towards the credit total. Summer school failures are not counted towards off-track status.

Off-track

These students either received more than one semester F in a core course (English, math, social science, or science) during the school year or did not have enough credits to advance to the next grade on time. Students in CPS non-charter high schools who have not graduated by the end of their fourth year are considered off-track in their fourth year; the same is true for those who have not graduated by the end of their fifth year.

Charter school

We do not have any course-taking information on charter school students and are unable to provide on-track information. However, we can determine when they drop out, graduate, or leave CPS.

Graduated

Graduates are identified by a graduation code in the CPS student information system.

Dropped out

Dropouts are identified by a “leave-code” in the CPS student information system that identifies why a student is no longer enrolled. We use the same codes as the CPS Office of Research, Evaluation and Accountability to designate students as dropouts. In addition, we treat students attending alternative high schools as dropouts.

Left CPS

These students are no longer enrolled in a CPS high school in a given year and have a code in the CPS student information system that designates them as leaving CPS, usually for another public school district, a private school, a correctional facility, a residential institution, or to be home-schooled. Because schools are sometimes slow to update codes, we allow an extra semester to determine if an inactive student actually left CPS.

Our Mission

The Consortium on Chicago School Research (CCSR) at the University of Chicago conducts research of high technical quality that can inform and assess policy and practice in the Chicago Public Schools. We seek to expand communication among researchers, policy makers, and practitioners as we support the search for solutions to the problems of school reform. CCSR encourages the use of research in policy action and improvement of practice, but does not argue for particular policies or programs. Rather, we help to build capacity for school reform by identifying what matters for student success and school improvement, creating critical indicators to chart progress, and conducting theory-driven evaluation to identify how programs and policies are working.
